

Pen with Hidden Covert CCTV Camera, Microphone & DVR (On Board Recording) Inside

Features a USB 2.0 Socket: To replay recordings simply plug into a USB socket on a compatible Windows PC.

The ultimate body worn Spy Camera. Ideal for filming covertly in all types of situations, from Store Detectives, Meeting Recordings, Cheating Spouses etc... the possibilities are endless. The camera is battery powered and has built in rechargable batteries so there is no need to buy batteries! As well as having a high quality hidden camera inside, the pen also has a high quality microphone and a digital vide recorder, and it still works like a normal pen, simply amazing. It also takes high quality 8 megapixel snapshots!!!
